Interested in helping with some of our Committees? See our list of committees on our website: <http://www.laurentiansetac.ca>, and click on “**Getting Involved!**”

Our constitution requires that all members share the purpose of our Chapter:

1. Promote research, education, training and development of the environmental sciences and specifically environmental toxicology and chemistry, hazard assessment and risk analysis.
2. Encourage interactions among environmental scientists and disseminate information on environmental toxicology and chemistry and its application to the science of hazard and risk assessment.
3. To sponsor scientific and educational programs and provide a forum for communication among professionals in government, business, academia and other segments of the environmental science community involved in the use, protection, and management of the environment and for the protection and welfare of the general public.

Please check here to show you share these purposes:

Print form and mail with cheque (payable to the Laurentian Chapter of SETAC) to:
Nicole Knezevich, Membership coordinator
Department of Biology, University of Waterloo
200 University Avenue West
Waterloo, ON, N2L 3G1
